ELEVATED SYSTEMS COMBINE.

Yerkes Gives Up Controlling Ownership of Three Lines.

Chicago, Feb. 27.—Charles T. Yerkes today stepped down and out of the controlling ownership and management of the Northwestern Elevated, the Lake Street Elevated and the Union Loop companies, transferring his title to the directors and capitalists. At the same time steps were taken looking toward the consolidation under one management of all the elevated traction systems in Chicago.

Meetings of the directors of the three companies affected by Mr. Yerkes's retirement were held this afternoon. Clarence Buckingham was elected president of the Northwestern company, John B. Dennis president of the Union Loop, and Clarence Knight was temporarily placed at the head of the Lake Street company.

The new president, however, will, it is said, only be nominally the managers, the directors having decided to hereafter be the factors in directing the management. To-day's action is looked upon as a practical consolidation of the three companies mentioned.

It is understood also that a guarantee offer of 5 per cent on the preferred stock was made to the directors of the Metropolitan Elevated Railway, in order to bring that big system into the general combine of elevated traction interests.

A MISUNDERSTANDING.
Misunderstanding symptoms of disease lead doctors to treat something else when the kidneys are out of order. Foley's Kidney Cure will bring you health when other medicines have failed. Take no substitute.

HONEYMOON IS TOO LONG.

Duke of Manchester's Creditors Are Becoming Impatient.

London, Feb. 27.—In the Court of King's Bench today, the case of Binghamton, Duke of Manchester, was again postponed owing to the Duke's absence in America.

The plaintiff seeks to recover £500 in damages for procuring the Duke's absence from the country. The Duke's defense is that the plaintiff's conduct was unreasonable.

The plaintiff's counsel opposed the postponement, saying the Duke's absence was not a reasonable one. The Duke's counsel, however, said the Duke was on a honeymoon and that his absence was reasonable.

Justice Bigham, remarking that the fact that there was a honeymoon was not a very strong argument, granted the postponement.

TO DEVELOP CANAL POWER.

Chicago Sanitary District to Pay a Special Tax.

Chicago, Feb. 27.—Action looking toward the immediate development of the water power of the Chicago drainage canal was taken today when the board of directors of the Board of Sanitary Trustees submitted to the board the draft of a bill amending the sanitary district law so that the board may levy additional tax to raise the \$2,500,000 estimated cost of the project.

This bill will be submitted to the legislature at once. Under President Jones's plan it is intended to submit the project to the city of Chicago for a term of ninety-nine years at a rental of \$1 a year for each horsepower. It is estimated that the project developed will be worth fully \$100,000 a year.

Protect Against Germicide.
REPUBLIC SPECIAL.

Lebanon, Ill., Feb. 27.—Honorable J. Nick Perrin of this place and Fred J. Kern of Belleville, Congressman from the Twenty-first District, went to Springfield today to protest to the Legislature against the proposition to detach Clinton County from Mr. Kern's district.

CONTAGION AND INFECTION.

La Grippe Is Infectious, But Not Contagious.

Contagious diseases are communicated from one person to another; infectious diseases are conveyed through the air. Smallpox is a contagious disease; La Grippe is infectious. When an epidemic of the grip is prevalent in the air we breathe and no one is safe.

The only safety to keep the system healthy is to use some safe antiseptic like Stuart's Catarrh Tablets freely, a tablet taken every hour or two for a couple of days will be sufficient to break up the attack.

La Grippe attacks the weakest part of the system. It may be the lungs, heart, stomach or kidneys, but wherever it finally lodges it is sure to start a chain of colds in the head and throat, or in other words, the disease at the beginning is acute catarrh.

This is the reason Stuart's Catarrh Tablets have been so successful in breaking up attacks of the grip. The antiseptic properties of the remedy destroy the germs breeding the whole system is thoroughly infected.

They check the excessive catarrhal secretions, stop the fever and prevent pneumonia. They are composed of antiseptics and may be used by little children as freely as by adults and with great benefit.

Doctor Lawson says: My usual prescription for the grip is Stuart's Catarrh Tablets, which can be found at all drug stores. Keep to the house for a day or two and use the tablets freely, and I have never heard any complaint of failure to cure.

We can sell you a Patent Leather Shoe, any size, for \$2.50. Save you \$1.00. HARRIS SHOE CO., PHONE 520.

BRIDE OF SIX MONTHS LONGS TO ENHANCE HER LIFE.

Rosa Lindhoff, Despondent Because Her Husband Is in Jail, Swallows Laudanum.

SORRY SHE RECOVERED.

Despondent because her husband is under arrest on a charge of theft, Mrs. Rosa Lindhoff, a bride of six months, attempted to end her life yesterday by swallowing laudanum. She took to cents' worth of the drug at No. 450 Duncan avenue, the home of Mrs. Margaret Wilson, her mother-in-law.

The police were notified and the young woman was taken to the City Hospital. Here the effects of the drug were counteracted by antidotes, and, after a short time, Mrs. Lindhoff was pronounced out of danger.

But she was not glad that her effort to die had been frustrated. "I have nothing to live for," said she. "My husband has never treated me well, and I don't think that he loved me. Then he was arrested two weeks ago, and is now in jail waiting for his trial. I do not know whether he is guilty. But the fact that he is imprisoned I feel is a disgrace to me. I will take poison again. It is all there is left for me to do."

Mrs. Lindhoff is 15 years old. John Lindhoff, of No. 320 Tower Grove avenue, is her husband. She says that he was arrested on a charge of breaking into a Pfaff's freight car in St. Louis County, and is now held at the Clayton jail.

Mrs. Lindhoff has been living for the last week with friends at No. 425 South Boyce avenue. Until her marriage she worked in a tobacco factory and lived with her stepfather, John Owensby, on Tower Grove avenue. She says that she married to obtain a better home.

LAWS STUDENTS ACT AS "SUPERS."

Take Strikers' Places and Assist Castle Square Opera Company in Production of "Faust."

PLAY THE PART OF SOLDIERS.

Twenty young law students from the St. Louis Law School "won their spurs" yesterday afternoon in a manner not prescribed by Blackstone.

Equipped in the full regalia of cavalrymen, they rode two brand new and carried torches in two acts of the production of "Faust" by the Castle Square Opera Company at Music Hall for 25 cents per soldier.

The students supplanted the twenty supernumeraries who "walked out" when Stage Manager Temple refused to consider their demand for an increase in remuneration from 25 cents to 40 cents. No member of the unusually large audience observed any friction whatever in the production of the opera, and few, if any, knew that among the "supers" classed as cavalrymen, soldiers and torchbearers were representatives of the St. Louis Law School, who may someday become leading jurists and diplomats.

When the trained "supers" made the demand for the increase, Stage Manager Temple suddenly refused to consider their demand would not be considered. In a body they "walked out" the stage entrance. Then there was confusion, as less than an hour remained in which to procure a sufficient number of substitutes in order to present the Market Square in act 2.

Arthur Siegel, superintendent of auxiliaries, hurried to the lecture-room of the St. Louis Law School and without difficulty succeeded in inducing twenty of the students to forsake their studies temporarily and lend their assistance in the production of the grand opera. The students were seated with the prospect of viewing an opera from behind the scenes, and within fifteen minutes were donning cavalry uniforms in the dressing-rooms of Music Hall.

The officers were given new uniforms and the conversation and comments in the dressing-rooms excited much mirth among them.

While adjusting a cavalry costume, which was about three sizes too small for him, a student remarked: "I think this suit needs a 'crom-pation' to make it fit." The student brought forth a remark from a student in the other end of the room to the effect that the student who made the remark was a "crom-pation" to make it fit.

A bill was passed permitting the owners of the theatre to make use of the services of natural drainage and exempting them from damages therefrom.

A bill was introduced in the Senate prohibiting pawnbrokers from purchasing any goods from minors.

A bill was introduced in the House making it compulsory for all persons between the ages of 12 and 18 to be vaccinated and appropriated \$10,000 to cover the cost of the vaccination. The bill was passed.

HIS WOUND PROVED FATAL.

John Evering, Who Shot Himself on East Side, Died at Hospital.

John Evering, of No. 214 South Tenth street, who was shot in the City Hospital on January 25, suffering from a bullet wound in the head, died yesterday morning at the hospital.

Evering was found yesterday in the alley near East Tenth and would not answer questions. He was taken into custody and was sent to his home in St. Louis, where he was cured of his wound.

The doctors he stated that the wound was self-inflicted, but would give no further information.

Evering was operated upon at the hospital, and it was thought that he was recovering, but meningitis set in and the injury proved fatal.

THIS MAN BREATHE THROUGH HIS EAR.

Henry Ammann, a City Hospital Patient, Suffers From a Peculiar Ailment.

Henry Ammann, 26 years old, of No. 156 Lafayette avenue, by a combination of circumstances which made the fact physically possible, can breathe through his right ear. There is a complete opening from his mouth to the ear, and by closing his mouth and compressing his nose he can inhale and exhale through his ear.

Ammann came to the City Hospital Tuesday morning, when talking with one of the hospital doctors, Ammann remarked that something was the matter with his ear.

"See, I can breathe through it," he said. Examination disclosed that his statement was true. In explaining the man's condition, one of the doctors said yesterday: "Ammann sustained some time ago a rupture of the membrana tympanica, or the eardrum. This left an opening into the eustachian tube. Now the lining of this tube has become atrophied, with the result that it admits air into the mouth."

Ammann suffers no inconvenience from his condition, save that the hearing of his left ear is affected, and that there is always a slight swelling in his ear, caused by the air which passes in and out of it as he breathes.

INTERURBAN BILL HAS BEEN REVIVED.

Council Committee to Give Hearing on Electric Railway Franchise Measure.

Developments of the last few days indicate an energetic revival of the project to construct an interurban electric railway between St. Louis and the more important cities in Southern Illinois.

About a year ago a bill was introduced in the City Council to authorize the St. Louis and Illinois Electric Railway Company to construct a line southwardly along the wharf from the Merchants' Bridge, but the measure went to sleep in the box of the Committee on Railroads. Several weeks ago a public hearing was held by the committee, but no one was present to advance the interests of the company and the general conclusion was that the plan had been abandoned.

The promoters, however, have revived the proposition, which had been reported dead, and, as a result, the Committee on Railroads will soon report to the City Council a substitute bill which will be practically a new measure in the more important features. This bill will be read at a public hearing at 4 o'clock Friday afternoon by the committee in the Council committee-room. The first section of the substitute bill will provide that the company shall remain an independent, competitive system. Section 2 will contain a clause prescribing that the company shall be subject to the same rules and regulations as the city and its employees shall be settled by arbitration.

The following rights-of-way will be dedicated: From the Merchants' Bridge, at or near Angelica street, to the wharf, southwardly along the wharf to Madison Street; from Madison Street, on Palm street to Twelfth, on Twelfth street to Morgan, on Morgan to Eleventh, on Eleventh to Walnut, on Walnut to Tenth, on Tenth to Franklin, on Franklin to Tenth to Eighth, on Eighth to Clark, on Clark to the wharf, along the wharf to Gratiot, on Gratiot to Seventh, on Seventh to Clark.

The bill will require the completion of the line by July 1, 1902. The franchise fee for 50 years will be 1 per cent on the gross earnings semiannually from January, 1902, to the city of 1 per cent from 1902 to 1910; 1 per cent from 1910 to 1920; 1 per cent from 1920 to 1930; 1 per cent from 1930 to 1940; 1 per cent from 1940 to 1950.

BRENNER GETS FOUR YEARS.

Ex-Cashier of Wainwright Brewery Pleads Guilty to Embezzlement.

Charles J. Brenner, the defaulting cashier of the Wainwright brewery, who was indicted for embezzlement, pleaded guilty to Judge Purvis's division of the Criminal Court today. Judge Purvis sentenced him to serve four years in the Penitentiary. It was alleged in the indictment that Brenner embezzled \$50,000 of the brewery's funds. He was detained in the brewery office while the warrant was procured.
